Are you experiencing any of the following symptoms:
Fever?
Cough?
Shortness of Breath?

YES

Provide the patient with a surgical ear loop mask and ask them to please wear the mask over his or her mouth and nose.

“Have you traveled to an area with known community spread of COVID-19?”

“Have you been directly in contact (within six feet) with someone who has been diagnosed with or confirmed to have COVID-19?”

YES to one

Inform the patient they presumably are experience COVID-19, but a test is not readily available for them at this time.

The patient is to:
1. Go home immediately and quarantine themselves for at least 14 days.
2. Monitor symptoms, and do not go to the hospital or any other healthcare facility unless your symptoms significantly worsen or become an emergency.
3. Adhere to the CDC’s guidelines for what to do when you are sick with COVID-19.

Suggest the patient go to Kearney Clinic to be screened and triaged for their high risk of COVID-19 or to call (402) 717-2001. He or she is to keep the surgical mask on and keep six feet away from any other individual.
